Technical Skills

- Programming Languages:
  HTML/CSS/ JavaScript
  TypeScript
  Java
  PHP
  Python
- Front-End Frameworks:
  Angular(NgRx, RxJs, Material)
  Angular Ionic
  Vue
  React(Redux)
  Bootstrap
- Back-End Frameworks:
  Laravel
  Spring Boot
  Node
  Django
- Extra
  Azure Dev Ops
  Git/Gitlab
  Jira
  AWS
  Auth0

Summary

Angular and Full Stack Developer with 8+ years with proven experience in helping companies create and maintain a better code base for reusability.

I've worked in software engineering for my entire over 8+ years programming history.

I'm a dedicated Full Stack(angular) developer with a broad and versatile coding skill.

After getting a Master's degree in computer science, I have worked for some large global companies – developing mostly web application for 8 years.

And I had also quickly helped startups and enterprises with prototypes and ideas by efficiently building those things into reality.

As a software Engineer I always have a creative and innovative mind behind programming & design software architecture.

I have solid experience with all things front-end and can work very closely with designers and UX teams.

Education

Delft University of Technology
Master of Computer Science
Feb 2010 - Nov 2014

Languages

- Chinese (Native)
- English (Fluent)
- Japanese (Conversation)

Professional Experience

VironIT | Charlotte, NC | US
Full Stack Developer   Sep/ 2019 – Jun/2023

Created several frontend of large websites and made them for all platforms and browsers.

Improved the scalable and complex components with Angular and SCSS.

Integrated many apis from Spring Boot backend with Angular website.

Built the client apps in Angular Ionic.

Developed custom websites using Angular, Spring Boot, Django and MySQL, PostgreSQL.

Worked in a high load system.

Managed and taught junior software engineers on daily projects.

LIG INC | Taito City | Japan
Full Stack Developer   Nov/2018 – Dec/2019

Implemented a mobile first responsive design using Angular and Scss.

Introduced style guides to the project.

Improved the overall user experience.
